Prospects for the future

[Home](#)

LIGHTRAY Used for returnable and for one way bottles.

LIGHTRAY Produced by recycled PET bottle material and can be recycled with the bottles.

LIGHTRAY For all bottle sizes 0,25 to 2 L in glass or PET.

LIGHTRAY The costs are nearly those of carton or folio.

Version from: 02/28/2001 (Norwegen 1,5 L)

Only one Package System for Returnable or one way Bottles:

Better afford on room and transport capacities:

LighTray space place on all, there is no more need as shrink film packages.

More safety in Transport:

The bottom of LighTray fix the caps of the bottles under the trays and stacking crosswise it is safe for transport.

LighTray has a tray-part that is sitting on the Neckring of the bottles. (Patent [PetCon](#))
